

## 22056\_Green Warriors\_Workshop Access Permission

Date: 12/11/2023

To,

The Organizing Committee,

SAENIS EFFI-CYCE 2023

### Permission to Access College Workshop for Fabrication of Efficycle

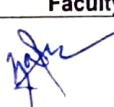

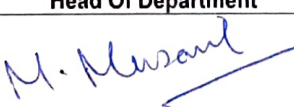

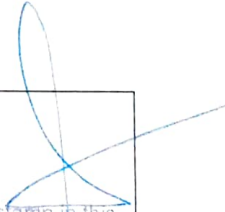

The team from our institute is participating in SAENIS EFFICYCLE 2023 competition.

We are aware about competition rules and hereby acknowledge that:

- Efficycle is an intercollegiate design competition which is purely intended for the learning of the participants.
- Participants have to design and fabricate the complete vehicle within the college campus using the facilities of institute workshop.
- Professional assistance in designing and fabrication is strictly prohibited. If any such case is found, the team may be disqualified by the organizing committee at any stage of competition.
- If any support from external facilities is required where special fabrication processes are required, it will be first informed to organizing committee for seeking permission.

In order to facilitate the team, we shall provide them adequate workshop facilities and appropriate supervision to complete the project on time. During the whole duration of project, team members will be allowed to use the necessary equipment, tools and machines with safe practices.

The permission has been granted to team for fabrication of efficycle at institute's workshop.
